The Park Nurseries

Holm & Olson, Inc.

Saint Paul, Minnesota

To Our Friends and Patrons —

With this spring season there comes again to you the year's opportunity to make the surroundings of your home more enjoyable through the beauty of growing trees, shrubs and flowers. Plantings that you make now will bring pleasure and comfort to you not only this summer but will extend through the years to come.

We want to help you get the very utmost of satisfaction from the grounds about your home. Sturdy and hardy plants are essential and you will find at our PARK NURSERIES an unusually choice selection of first-quality plants and gardening merchandise. Horticultural advice and assistance in actual planting is always available to you to any extent you may desire.

We solicit your patronage and orders knowing that we can assure you of entire satisfaction. Truly, you can buy here with confidence.

HOLM & OLSON, INC.

WHEN TO ORDER. Please order early. When you send your order early we can serve you better by making first selections and reserving the plants. Your order will be delivered at the right time for planting.

HOW TO ORDER. Send in your order by whatever means is most convenient. It will receive prompt and careful attention.

PLEASE GIVE SHIPPING INSTRUCTIONS. Tell us how you want shipments made—whether by freight, parcel post (suitable only for small peckages), or express and indicate any special routing. We recommend express excepting on heavy, bulky shipments. When not instructed, we use our best judgment.

NO PACKING CHARGE. Catalog prices are for stock F. O. B. St. Paul with no charges for packing. Twin City deliveries are made free of charge.

BUSINESS TERMS. Cash with order is expected. If credit is to be arranged please furnish the usual business references. All accounts are due by the 10th of the month following date of purchase.

PLANTING INSTRUCTIONS—Careful directions for planting are always given so that you can secure the best results. You are further invited to consult us freely for dependable information about any of your gardening and landscape problems.

FOR YOUR PROTECTION WE OFFER A VERY LIBERAL GUARANTEE

First. *We assure you that you will receive the best quality of live, healthy plants, properly packed to reach you safely. If any plant proves untrue to variety ordered it will be resupplied without charge.*

Second. *We agree to resupply any plants that may fail to become established the first season after planting at one-half of the purchase price. Requests for any such replacements must reach us before October 1st of that season.*

Our very liberal replacement agreement is possible only because we have full confidence in the vitality and sturdiness of our plants and know they will succeed with normal care and attention.

VISIT OUR NEW ROCK GARDEN

The lily pool, cascade and rock garden are new additions to our interesting plant and flower exhibits at the PARK NURSERIES at 1200 St. Clair Street (just beyond Lexington and St. Clair) in St. Paul. Beginning with a gorgeous display of spring flowers there follow attractions that will delight you throughout all the season.

You are cordially welcome at our Display Gardens and Nursery. Come often and bring your friends.

MODERN GARDENING

Will Give Your Grounds
BEAUTY AND COMFORT

The Outdoor Living Room—

Your yard can be made so inviting as to truly become your "out-door living room"—a spot that all the family will seek for rest and recreation.

Ask us to tell you just how you can develop your yard for your greater use and enjoyment.

Our special booklet—"Planning and Planting the Outdoor Living Room"—will be sent on your request.

Why not develop your yard so that it becomes your
out-door living room?

6 DELIGHTFUL GARDENING FEATURES THAT YOU TOO CAN HAVE—

Ask Us to Help You Plan and Plant Them

1. **HOUSE FOUNDATION PLANTINGS** to soften the corners and angles of the building and to make it a part of the landscape picture. These plantings should be moderate in amount and most carefully selected to be appropriate to the type and architecture of the building.
2. **PROTECTIVE SHRUB BOUNDARIES** to frame in the yard particularly along the sides and rear and so create privacy for your lawn. Taller-growing and medium height shrubs are used in pleasing combinations.
3. **COLORFUL FLOWER BORDERS** to provide cheerful color and plenty of flowers for cutting all season through. The hardy perennials, living from year to year, make the framework of these bright flower borders.
4. **ROSE AND FLOWER GARDENS** are a source of delight and pleasure. We will help you select the location and suggest proper plants.
5. **EVER-BEAUTIFUL EVERGREENS** will add charm with their all-year-round green foliage. They can be used in lawn and garden groups as well as combined with shrubs in the border. We offer choice, handsome specimens of the newer varieties.

A rockery and pool will bring new interest and pleasure

6. **ROCK GARDENS** are a continual source of enjoyment and interest. The construction can be very simple if desired and can be adapted to most any property if rightly planned and located.

The best hardy rock garden plants have been marked with a star (*) on pages 14 to 17. There is a special Rock Plant collection offered on page 19.

ROCK GARDEN BOOKLET—FREE

Ask for a copy of our helpful booklet—"The Home Yard Rock Garden"—sent free on request. It gives construction helps and full plant lists.

We share the owner's pride in the beauty of these grounds just two seasons after planting. Residence properties of Dr. A. W. Adson and Dr. M. S. Henderson, Rochester, Minn.

SHRUBS for FLOWER and FOLIAGE

Sturdy Plants for Northern Gardens

SHRUBS are very important to the landscape beauty of the home grounds. A large area of our nursery and the skill of experienced gardeners is devoted to developing our shrubs into sturdy, handsome plants that will quickly bring beauty to your home property.

There are so many types of shrubs—so many variations as to character of growth and flowering habit—that you are sure to find many attractive kinds to fill any need you may have. Ask us freely for advice and suggestions as to arranging the plants in the most pleasing way.

WHY WAIT FOR RESULTS?

PLANT H. & O. SPECIMEN TREES

There is no need for you to wait for years for trees to grow, for we have a selection of splendidly developed, large Evergreens and Shade Trees that can safely be transplanted to your grounds. You can enjoy their full beauty immediately.

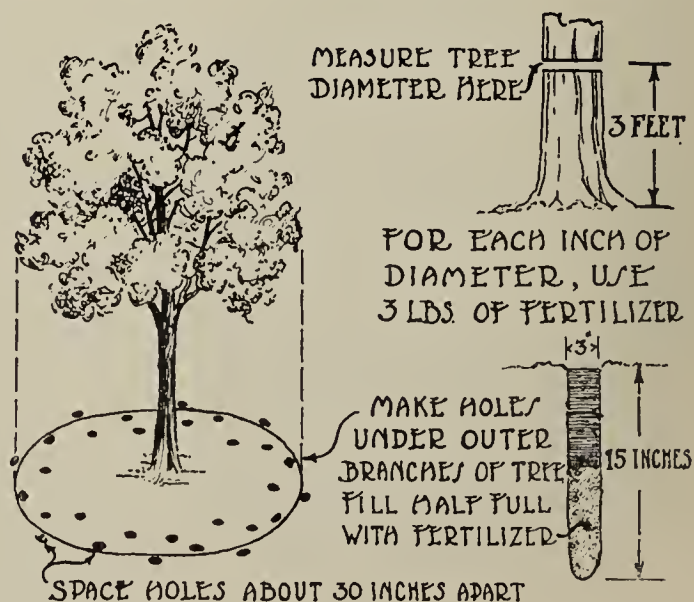

Ask for Estimates and Prices.

FEED YOUR TREES— KEEP THEM HEALTHY

This diagram shows how you can fertilize and feed your trees.

Keep your fine, old established trees in healthy growth and preserve their beauty by proper fertilizing. When a tree is in vigorous growth it is less subject to insect and disease attacks.

Use "LOMA"—the perfect plant food. It is economical and efficient, pleasant to use and easy to apply. See page 24 for prices.

FLOWERING PERENNIALS

The Hardy Garden Flowers

PERENNIALS are delightful when arranged in borders with an assortment of varieties so that some are always in bloom. For new beds prepare the soil by spading and raking and dig in fertilizer—5 lbs. of "LOMA" plant food to each 100 sq. ft. of area is excellent. A location away from tree roots and dense shade is best.

Hybrid Tea Roses

Now you can be sure of BEAUTIFUL ROSES With H. & O. Potted Growing Plants

HERE IS THE REASON WHY H. & O. POTTED ROSES ARE BETTER

These sturdy, well-developed plants have had two years' growth in the open field. They were carefully planted in six-inch pots early this spring and started into growth so as to reach you in a healthy growing condition. There are no chances for you to take with these growing plants for they are ready to set right out into your garden and will produce results. No other firm in the Northwest supplies roses of this kind.

PRICES OF H. & O. QUALITY, POTTED ROSES

Each \$1.00; 5 for \$4.50—unless otherwise noted.

Monthly Everblooming Roses — "HYBRID TEAS"

A class of roses originated by crossing the tender Tea Rose with the hardier Hybrid Perpetuals. Their rich coloring, fragrance and extended blooming season makes them very popular.

SUGGESTIONS FOR ROSE CULTURE

TIME TO PLANT.—Spring planting is the safest in this section. Our potted plants can be planted as soon as danger of heavy frost is past, about May 15, and from then on throughout the entire summer. Your orders will be delivered at the best planting time.

MULCH WITH PEAT.—Covering the ground around your roses with ½ inch of pulverized peat encourages stronger plant growth and better flowers. (See page 24 for prices on special prepared peat.)

COLORFUL IRIS

"The Orchids of the Garden"

THE Iris is deservedly a very popular perennial garden flower. The plants are extremely hardy, easy to grow most anywhere and the flowers are so showy and colorful as to merit their name.—"The Rainbow Flower."

HOW TO PLANT—Place the roots just deep enough to be covered with soil and avoid any fresh manures as a fertilizer. Iris prefers a sunny location.

NOTE—In the descriptions "S" refers to the "Standards" or 3 upright petals; "F" refers to the "Falls" or 3 lower petals.

Prices are all for strong, sturdy, first-quality roots.

SPECIAL PRICES

A 10% discount is allowed from the "each price" when 5 or more of a variety are ordered
